Docket No.: 0445-0316P

AMENDMENTS TO THE SPECIFICATION

In the written description:

Please amend the paragraph at page 5, lines 16-20 of the present specification as follows:

A plurality of elastic members are disposed on and fixed to the raised portion 5B at a predetermined interval and along a longitudinal direction of the diaper 1. In the illustrated example, two flat rubbers (shown by reference numerals 54d and 54e of FIG. 4 in order) in total are disposed on the approximately widthwise central portion of the raised portion 5B and at an area in the vicinity of the ~~base end 53.~~ base end 52.
